

R Monogram Railing

—Steve Dykstra
Hedgeville, WV

Design Concept: Cyd Rowley
Forging, Fabrication & Installation: Lee Badger/Anvil Works

The Monogram Railing was commissioned by a jewelry designer/craftsman, who presented us with very specific design concept drawings that required extensive and advanced master craftsmanship. We developed and produced the design for the intended location and installation conditions. The budget was relatively large, the project was very challenging and unique, and the time frame was not an issue. ☞

A PHOTO ESSAY
